Fatigue 2020 - CALL FOR PAPERS

Fatigue 2020 will be held at Downing College, Cambridge 29 June - 1 July 2020. A call for papers has been issued and we are particularly interested in papers that address the questions:

- Durability of advanced materials;
- Novel manufacturing techniques for improved component durability; Integrity of recycled and reprocessed materials;
- Joining technologies: bolts, welds, adhesives, joining dissimilar materials, correlation of testing and in-service durability;
- Surface engineering and durability;
- Innovations in 3D imaging for structural integrity;

Further details can be found at www.fatigue2020.com

We're pleased to welcome Phoenix Materials Testing Ltd, Severn Thermal Solutions, Vibration Research UK & GOM UK as sponsors.

Sponsorship opportunities are still available and you can view the sponsorship brochure on the Fatigue 2020 website: www.fatigue2020.com

Instrumentation, Analysis and Testing Exhibition 2019

This will be held on 2 April 2019 at Silverstone Race Circuit so please add the date to your diary. Next year's theme will be 'Bridging the Gap between the Virtual & Physical Worlds' and there will be several mini seminars to support this. To book your table contact the secretariat info@e-i-s.org.uk

Peter Watson Prize 2018

Following an afternoon of presentations by the finalists at Derby County Football Club, the judges were pleased to award the 2018 Peter Watson Prize

to Daniel Heller of Imperial College London. Armando Serino of Warwick University was Highly Commended. Congratulations to them both and thanks to all the other finalists who presented at the event.

Young Engineers Seminars

As one of our charitable activities we run a series of seminars aimed at those at the start of their engineering careers. If you are able to support by offering a presentation or venue or are able to suggest topics for future seminars please contact the secretariat: info@e-i-s.org.uk

Durability & Integrity of Additive Manufactured Products: Do you really know what you've made?

This seminar is planned for February 2019 at MTC Coventry. Further details will be released in the coming weeks.

Electrifying Challenges for Road & Tyre Noise

This event will be held at HORIBA MIRA on 15 May 2019. A call for papers will be issued shortly and if you would like to contribute to the day please get in touch info@e-i-s.org.uk
