

Webinar: Improving Performance through Effective Coaching 2 December 1pm

We'd like you to join us for a 60 minute virtual session to introduce you to this important (if not critical) skill. In 'Improving Performance through Effective Coaching' we'll

- Discuss the principles of coaching in the workplace
- Talk about the 'belief in human potential'
- Explain how coaching can be the most effective way to maximise your performance
- Share a simple coaching framework

You'll also have the chance to put questions to the facilitators.

Although organised as part of our EIS Young Engineers Forum, this webinar is available to all and FREE to attend. If you would like to join us for this interesting and thought-provoking webinar please contact Sara Atkin at info@e-i-s.org.uk

Fatigue 2021

We are pleased to confirm we have a full programme for the conference which takes place 29 - 31 March 2021 at Downing College, Cambridge. Further details on presenters and sessions can be found on our conference website. For information on how to book your delegate place please visit www.fatigue2021.com.

Instrumentation, Analysis & Testing Exhibition 2021

A date for your diary: Next year's Instrumentation, Analysis and Testing Exhibition will take place on 14 September at Silverstone Race Circuit.

USEFUL LINKS

A number of our corporate members and partner organisations have provided us with details of FREE online material, including webinars, which may be useful to our members.

Gantner Instruments

Gantner Instruments has produced a white paper on [Vibration Monitoring Essentials – An Overview of Acceleration Measurement Technologies](#)

Hottinger Bruel & Kjaer

[HBK Product Physics Conference](#) - if you missed the conference you can still get on-demand access to the recordings from the event.

There are also a number of webinars coming up:

1st December: B&K 2245 Sound Level Meter Introduction

3rd December: BK Connect How to Series: Displaying Your Data

8 December: Selection and Use of Measurement Microphones

10th December: Working with Accelerometers – Selection, placement, setup and calibration

[More information](#)

Polytec Ltd

On 1st December Polytec will be hosting a webinar via the Advanced Engineering Show - [Look but don't touch: 5 reasons to use optical surface metrology](#).

Polytec will also be running virtual demonstrations of their new next generation optical surface profilers. Email info@polytec-ltd.co.uk to book your place.

Siemens Digital Industries Software

Webinar: 9th December - [Tackle the challenges of high-speed ADAS sensor and autonomous vehicle data collection for testing and validation](#)

Torquemeters

Torquemeters will be exhibiting virtually at the Turbomachinery and [Pump Symposium](#) online from the 8th-10th December 2020.

Join us to explore the latest developments in continuous duty torque measurement for industrial gas turbines.
