THE SILVERSTONE WING, SILVERSTONE RACE TRACK
18 MARCH 2014 10AM - 4PM

Over 50 exhibitors will present the latest advances in measurement analysis and testing technology in aerospace, automotive, motor-sport, rail, off-highway, mechanical handling, industrial and power generation industries. Visitors will be able to discuss these developments and their applications in an informal atmosphere with exhibitors.

Open Forums include:

- 3D Printed Components - use in Stress Analysis and as Structural Components
- Successes and Future Challenges in Vehicle Dynamics
- The Effect on Component Life and Performance of Manufacturing Induced Residual Strain
- Gearbox Noise and Life Monitoring

Guest panels comprising experts from industry and academia will expand on the technical developments & take questions from the floor.
